Standard options and Custom Shop options

We offer so many standard and custom shop options, that it is easy for a musician to get confused. Basses that have custom shop options receive special care and documentation.

Examples of standard options:

- > If a customer changes the hardware color
- > If a customer wants another finish color like Burgundy Red OFC, Nirvana Black OFC, Black Stain HP, Sunburst HP, or a Metallic color
- > If a customer wants a fretless instrument
- > If a customer wants a lefthand instrument

These examples are all standard option and will not require a custom orderform!

Basses built with custom shop options recieve the following documentation and free upgrades:

- > Custom Shop Certificate
- > Leather Gigbag

Some of these instruments will be selected and shown in the custom shop gallery on our website

Custom Shop hourly rate for special requests

90.00€

Discontinued models (not available with custom shop options)

upcharge for discontinued bass (please ask for availability)

360.00€

(no discontinued up charge for following Bass Model: Corvette Std., Streamer LX BN, Thumb Bass Bolt ON BN)

Signature and Alien Basses

Custom Shop options are not available for Signature, Alien Basses

** Note: Sensitive woods	Sensitive woods can react quick to climate changes.	
110to: Ocholite Woods	So it can occur after a while because of climate changes that cracks can appear even	
	when the instrument is still under warranty. For this we can't give warranty. All our	
	instruments leave the factory without cracks and in best possible drying conditions.	
	The risk of cracks are on your side. We recommend a constant climate of 45% humidity	

*** Note: Burl wood

Burl woods can only be ordered with satin satin or high polish finish. Oil finish option is not available. satin or high polish finish surcharge is always separate and added later.

The risk of cracks are on your side. We recommend a constant climate of 45% humidity

at 20 degress celsius

** Note: Sensitive woods

Sensitive woods can react quick to climate changes.

So it can occur after a while because of climate changes that cracks can appear even when the instrument is still under warranty. For this we can't give warranty. All our instruments leave the factory without cracks and in best possible drying conditions. The risk of cracks are on your side. We recommend a constant climate of 45% humidity at 20 degress celsius

*** Note:

Burl woods can only be ordered as lacquered surfaces in satin or high polish. Oil finish option is not available. The surcharge for the satin or high polish lacquer is always separate and added later.
